E-COMMERCE ENTREPRENEUR

Shopify

- Launched and manage a personal business on Shopify, overseeing product listings, inventory management, and SEO-driven content to maximize online visibility and sales.
- Gained experience in e-commerce management, digital marketing, and customer engagement, developing a well-rounded skill set in online business operations.

PROJECTS

1- Portfolio Website

Technologies: React.js, ES6, JavaScript
Developed a user-friendly portfolio website using React.js, showcasing my work, skills, and projects. Implemented advanced JavaScript ES6 concepts, ensuring smooth navigation, responsive design, and interactive features.

2- MERN Stack Project

Technologies: MongoDB, Express.js, React.js, Node.js, Axios
Created a full-stack application that allows authorized users to perform CRUD operations. Utilized MongoDB for the database, Express.js and Node.js for server-side functionality, and React.js for the front end. Axios was used for seamless data fetching, and user authentication was integrated to secure access.

3- MOVEI Search App

Technologies: React.js, Axios, Movie Database API
Built a search app where users can search for movies by entering a query. The app fetches and displays movie data from an external API, providing users with real-time results. They implemented features like pagination and dynamic search to enhance user experience.
